

Iteration Samples

This sample demonstrates supported array-based iteration patterns with `map()`.

Array iteration

- Item 1 of 3: First item from an array
- Item 2 of 3: Second item from an array
- Item 3 of 3: Third item from an array

Nested iteration

Group A (1/2)

Value 1: Alpha

Value 2: Beta

Group B (2/2)

Value 1: Gamma

Value 2: Delta

Value 3: Epsilon

Conditional iteration output

1. Even number: 2
2. Even number: 4
3. Even number: 6

Map result without spread stays nested

The next paragraph is followed by a nested array returned by `map()`.

Nested 1

Nested 2
